Re: Proposed Increase of Fees and Charges Associated with Overweight and Over-Dimension Vehicles

Section 97.200 of the Lombard Village Code establishes fees and charges that are associated with overweight and over-dimension vehicles traveling through the Village. These fees were recently examined by officers in our traffic unit since they have not been changed since 1996.

The traffic unit personnel are recommending a modest increase to the existing charges and fees. Their recommendations are reflected in the proposed ordinance. The ordinance very simply recommends an across the board increase of \$25 in every applicable category. There are no language changes associated with this ordinance. The only changes are in actual dollar amounts. I concur with the recommendation. Based on current estimates, the increased fees should result in an increase of approximately \$10,000 to \$15,000 per year in revenues.

If you should have any questions, or would like additional information, please do not hesitate to contact me.
