 Subject: Street Light Pole Replacement Program - Material Purchase Request

The Village's annual Capital Improvement Plan incorporates a Street Light Pole Replacement program, which is designed to gradually replace deteriorated street lighting infrastructure over the next ten years. Implementation of this program requires the purchase of related street lighting materials, such as various poles, mast arms, and lighting fixtures.

On February 27, 2012, the Public Works Department solicited unit prices for the various street light items from five (5) area vendors with which the Village currently has purchasing accounts. Of the five (5) companies solicited, two (2) were responsive, one (1) partially responded, and two (2) did not respond. Attached is a tabulation of the unit prices submitted, demonstrating P.J.D. Electric Sales offers the lowest unit price for every item requested.

Staff requests authorization to purchase various quantities of these items from P.J. D. Electric Sales, totaling \$24,008.88, as demonstrated below.

Street Lighting Stock Material (FY12)
