Subject: Request for Traffic Control at Brewster and Hickory

I received a call from an area resident requesting stop signs at Brewster and Hickory. This area was reconstructed in 1997 as part of SA 208. The diagram shows a major sight obstruction on the southeast corner and minor obstructions on the northwest and northeast corners. The traffic volumes are higher on Hickory than on Brewster.

On the basis of the above information, I would recommend installing stop signs on Brewster at Hickory.
