> for compliance with the parking requirements of this section shall be subject to the review and approval of the Director of Community Development.

4. Control of Off-Site Parking facilities

In cases where parking facilities are permitted on land other than the zoning lot on which the building or use served is located, such facilities shall be in the same possession as the zoning lot occupied by the building or use to which the parking facilities are accessory. Such possession may be either by deed or long-term lease, the term of such lease to be determined by the Village Board. The deed or lease shall require such owner or his or her heirs and assigns to maintain the required number of parking facilities for the duration of the use served or of the deed or lease, whichever shall terminate sooner.

For owners and/or operators of uses located within the B5 District that intend to satisfy the parking requirements by utilizing parking spaces owned by the Village of Lombard, the owner and/or operator shall enter into a parking agreement with the Village Board. However, this provision shall not be interpreted to automatically grant parking rights to a particular use for spaces owned by the Village, but rather should be subject to the Village Board approval on a case-by-case basis.
