§153.508 BSA DOWNTOWN PERIMETER DISTRICT REQUIREMENTS

(A) Purpose Statement

The BSA Downtown Perimeter District is intended to be a transition between the downtown and other commercial areas that accommodates all retail, service, and specialty shops and necessary civic services characteristic of the traditional central area in a pedestrian environment while also recognizing compatible automotive land uses.

The intent of the BSA District sign regulations is to provide for the need of businesses and enterprises located in the district for identification, while protecting the vehicular traffic from the adverse affects of visual distraction, and enhancing the aesthetics of the district by

preventing visual clutter. Within the B5A District structures and signage are typically in close proximity to the roadway, vehicular traffic tends to move at a slower rate and is subject to greater signalization than traffic in other business districts in the Village, and it is the goal of the village to present an aesthetically pleasing streetscape to the pedestrian. Therefore, the size and scale of signage within the district is more restrictive than that permitted in other districts. However, certain buildings in the B5A District are not in close proximity to the roadway. In order to ensure visibility, these buildings are permitted a greater deal of flexibility with regard to freestanding signs.

(B) Permitted Signs

All signs located in the B5A District shall conform to the specific requirements set forth in this Ordinance. In any B5A District no sign shall be permitted except the following named signs:

- (f) Curbing: Any freestanding sign within three (3) feet of a driveway, parking area, or maneuvering area shall be completely surrounded by a curbing that is not less than three (3) feet from the outermost perimeter of the sign, and this area will be landscaped as approved by the Director.
