February 4, 2000

**Trustee Steven Seby  
and Members of the Public Works Committee**

Here is a letter from Mr. Dave Gorak, 36 N. Ahrens requesting a reimbursement for backyard drainage work completed in the fall of 1999 at a cost of \$1680. Unfortunately, the Backyard Drainage Program took effect on December 1, 1999.

I asked Mr. Gorak to write a letter (attached); and explain his situation to the Public Works Committee at the February 8, 2000 meeting. He attended at least one Public Works Committee meeting and one Board of Trustees meeting in 1999 to address the backyard drainage issue.

Stan Rickard  
Director of Public Works

Re: Financial Assistance Program for Backyard Flooding Problems

Dear Mr. Rickard:

During the recently completed St. Charles Corridor Improvement Project, I was told by the Village Board and the Public Works Committee that no financial assistance was available to help offset the cost of hooking up an existing catch basin on my property to the village's sewer system.

Now I see that the village has created a program that would reimburse homeowners for half the cost of installing a village-approved drainage system. However, this new plan, which took effect January 20 of this year, is retroactive to Dec. 1 or about 6 weeks after work on my property was completed at a cost of \$1,680.00.

I will attend your committee's scheduled February 8 meeting to discuss this matter further.

Sincerely,

David A. Gorak
