Village of Lombard – Recycling Education Grant Program Application
Submitted by Delphi Academy of Chicago, 241 E. Roosevelt Rd., Lombard, IL 60148

Planned Educational Green Science Project:

To provide a sound base to our elementary students on the benefits of growing your own food. To educate on how to do this in an earth friendly way. To promote our “Healthy Planet, Healthy You” program new to our school this year. Our “Healthy Planet, Healthy You” program connects students to the idea that by making healthy choices in food, cleaning supplies, water and household items they are not only enhancing their own health but the health of this planet.

How the Planned Project Builds on Existing Projects:

This concept builds on our existing 3R’s science programs that have been in place for the past 10 years. Students in the past have cleaned a mile each Earth Day, created worm farms, compost in our Organic Compost Tumbler and use the rain water from our rain barrel. They have volunteered at Feed My Starving Children and S.C.A.R.C.E. each year. They recycle through SCARCE their used school supplies and crayons, as well as pickup paper to be used in the classroom. They have collected cell phones, water bottles and ink cartridges for recycling. Last year the children assisted a local Lombard resident to create a space in their yard, start a compost bin and plant a garden. They have plans to continue this project this year on a larger scale and plan to create a rain barrel for watering.

Classroom Emphasis:

Weekly science lessons plans include the “Healthy Planet, Healthy You” program. We promote a sugar free and low lunch packaging environment. We have recycling centers located in the lunch areas. Our current sixth graders have a Go Green Club and promote to all the students to use “snack taxis” which are cloth, washable “baggies” to bring their lunch items in.

Items Requested Through Grant

- | | |
|---------------------------------------------------|--------------------------------------------|
| 1. Two, Hands-On Green Gardening Exploration Kit. | Item # 829TOOLCHST
