**VILLAGE OF LOMBARD HISTORICAL COMMISSION
FINDINGS OF FACT RELATIVE TO THE PROPERTY LOCATED AT
355 EAST PARKSIDE AVENUE, LOMBARD,
COMMONLY KNOWN AS THE SHELDON PECK HOUSE**

The Lombard Historical Commission voted unanimously at their January 16, 2007 meeting to designate the Lombard Historical Society (LHS) Sheldon Peck Homestead, located at 355 Parkside Street, Lombard, Illinois as a "landmark site".

Pursuant to Section 32.079 of the Lombard Village Code, the Lombard Historical Commission held a public hearing on Tuesday, August 14, 2007, at 7:30 p.m., in the Village Board Room at the Lombard Village Hall, 255 East Wilson Avenue, Lombard, Illinois, in regard to the request by the Lombard Historical Society and the Village of Lombard to designate the Sheldon Peck House (also known as the "Sheldon Peck Homestead"), located at 355 East Parkside Avenue (the "Subject Property") as a "Landmark Site". Notice of the public hearing was provided pursuant to Village Code and public testimony was received at the meeting.

In consideration of the presented testimony, submitted documents and discussion among the membership of the Historical Commission, the Commission considered the following criteria concerning the Subject Property and makes the following findings of fact:

1. The character, interest, or value as part of the development, heritage, or cultural characteristics of the Village.

The Commission finds:

- a. The LHS Sheldon Peck Homestead is a well recognized site within the Village of Lombard, which has been on Lombard Historical Commission Historic Site Recognition list since the Commission was established in 1969 and furthermore the LHS Sheldon Peck Homestead has been on the Lombard Historical Society Historic Sites register since the Society began placing plaques to recognize Historic Houses in the early 1970s.
- b. While the home itself is noteworthy of preservation, the Subject Property is an integral part of the history of the site and merits consideration for designation as well. Historically, the Peck House has been commonly referenced to and linked with the larger Peck Homestead. The Subject Property provides context for the Peck Home and the grounds are integral to its historical context. As such, the designation should include the residential structure as well as the surrounding grounds.

- c. If in the event the Peck House were damaged or destroyed, the Subject Property still merits consideration for preservation and the designation should remain on the Subject Property.

2. The identification with a person or persons who significantly contributed to the cultural, economic, social, or historical development of the village.

The Commission finds:

- a. The LHS Sheldon Peck Homestead is the original hand built home of nationally famous folk artist and portrait painter, Sheldon Peck. His original portraits now hang in ranking art museums such as the Art Institute of Chicago, the American Folk Art Museum in New York and similar U. S. east coast art or history museums. Peck and his portraits are featured in many publications about U. S. folk artists.
- b. His son, Charles Peck, was a landscape painter who co founded the Chicago Academy of Design, which was a forerunner of the Academy of Fine Art, which became the Art Institute of Chicago. The U. S. national Smithsonian archives document about 60 known Sheldon Peck portraits. Sheldon Peck's limited number of early American portraits have sold for \$80,000 to \$750,000 in recent art markets.
- c. The Peck Homestead is the home of a well known pioneer family in Babcock Grove, now known as Lombard. While Peck and his family were not the first settlers, they were among those who came early to the town. Peck hired a woman to begin the first school in Babcock Grove. Many descendants remain in Lombard.
- d. LHS Research, family records, and related historical information indicates the Peck Homestead was an Underground Railroad site, possibly between 1840 to 1860. The Underground Railroad (URR) is an informal network of homes and sites that helped people escaping from the south to freedom in the north during the years before the U. S. Civil War. People involved in the URR were generally involved in Methodist or Quaker Churches. Research shows Peck and two of his sons, John and Charles, listed in various abolitionist newspapers (Western Citizen newspaper), related political parties (the Liberty Party), and as a speaker at abolitionist (Warrenville, Ill.) rallies. Some of Peck's portraits were of known abolitionists.
- e. The grounds surrounding the Peck House are inextricably linked to the contributions and activities of Sheldon Peck which make both worthy of designation.

3. The architectural significance of a building which is at least 50 years of age and is a good example of a specific architectural style containing distinctive elements of design, detail, materials, or craftsmanship, or is an example of a style which had an impact on the community. Such a building must retain much of its original architectural integrity.

The Commission finds:

- a. The LHS Sheldon Peck Homestead is the oldest house in Lombard, and is more than 150 years of age.
- b. A unique hand built house, it was restored under recognized national historic guidelines. The guidance of both State of Illinois Historic Preservation agency representative, Ted Hildt, and well known restoration and preservation architect, Jack Leur, between 1997-1999 assured house restoration met historic requirements.
- c. The Peck-Mertz family has continuously owned the house until its ownership was transferred to the Lombard Historical Society by Allen Mertz in 1996. Original family photographs guided the restoration team on what Peck built in 1837-39. The family removed the west room when a second floor was added to the house in about 1910, and stucco covered the rebuilt 2 story home. This stucco was removed, and the west room was completely rebuilt in 1998-1999 to conform to family photos showing original 1839 house size and shape.
- d. The Village of Lombard purchased the land in 1997 to allow the home to remain on its original site.
- e. The Illinois State Historical Society gave the joint Historical Commission, Historical Society, and Community volunteer restoration team a state award in 2000 to recognize the excellent historic restoration work.
- f. The LHS Sheldon Peck Homestead is now a community museum with over 2000 visitors per year. School and community groups participate in pioneer living history programs. The Peck Homestead is featured in local and county brochures, television/cable TV shows, print magazines, newspapers and other media.

4. The archeological importance of a site which has yielded, or may be likely to yield, information important in pre-history or history.

The Commission finds:

- a. The LHS Sheldon Peck Homestead is a sample of the pattern of westward settlement significant to Babcock Grove (i. e. Lombard's) early growth and development. Peck sold a triangle portion of his land in 1848 to allow the Chicago Galena Railroad to be built (today's Union Pacific/Metra

tracks). Peck and his family sold portions of his land to allow early housing subdivisions east of Main Street and north of Maple Street.

- b. The Peck Homestead shows visitors/tourists how Peck's family lived on an 1840 era pioneer farm. Pioneer gardens and native plants and grasses show early vegetation. There are very few original farms that remain today to show people pioneer farm life, which is how our village began. DuPage Co. farms are now replaced with suburban homes and industry. Schools gain a resource on pioneer crafts, food and food preservation, gardens, heritage apple trees, health care, clothing, pioneer life, education, etc.
- c. The LHS Sheldon Peck Homestead has had some preliminary scanning (foundations and footings). The cellar and the privy areas have not yet been researched by an archeology team. Since the site was continuously owned by the Peck-Mertz family, it is likely that additional historical content will be unearthed. Neighbors occasionally unearth pre-1900 items to share with the museum.
- d. While a full archeological review has yet to be completed on the Subject Property, such a review may provide additional insights and information regarding the historical use of the Subject Property, and as such should be preserved. Moreover, the designation for the grounds should also be done concurrent with the designation of the residence, to ensure that activities surrounding the Peck House do not negatively impact the Peck House itself.
- e. Situated on the Subject Property are large stones that may have been placed or located on the property by the Peck family, an existing garden that may have been originally established by the Peck family and existing trees located on the property that may date back to the Peck family's ownership of the property.
- f. The Commission recognizes that an existing fifty foot easement for future parking and/or roadway improvements was dedicated along the north side of the Subject Property, as part of Village Resolution R 65-99. The Commission recognizes that the easement area does not merit landmark designation. However, the easement area should remain a part of the Subject Property and should not be subdivided from the Subject Property.

Based on the submitted petition to the Lombard Historical Commission and the testimony presented, the Historical Commission finds that the existing Peck House/Homestead at 355 East Parkside Avenue does comply with the criteria established for designation as an landmark site based upon the aforementioned findings of fact, and, therefore, recommends to the Corporate Authorities that the Sheldon Peck House/Homestead at 355 East Parkside Avenue be designated as an historical site, subject to the following conditions:

1. The historical site designation is limited to the existing Peck House, as built in 1839, and also includes areas like Peck's orchard with trees, rocks, roses and potential excavation sites, on the property at 355 East Parkside Avenue, as completed in 1839, legally described as follows:

The South 145.4 feet of the North 195.4 feet of the West 109 feet of the East 138 feet of Block 1 of Cambridge Manor, a subdivision in the West ½ of Section 8, Township 39 North, Range 11, East of the Third Principal Meridian, in DuPage County, Illinois.

P.I.N.: 06-08-117-023 (part of)

2. The residence shall be maintained in good condition.

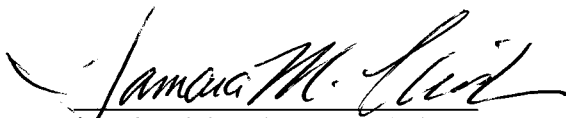

This written recommendation set forth above was reviewed and approved by the Lombard Historical Commission at its meeting on _____, 2007.

**VILLAGE OF LOMBARD HISTORICAL COMMISSION
FINDINGS OF FACT RELATIVE TO THE PROPERTY LOCATED AT

COMMONLY KNOWN AS THE SHELDON PECK HOUSE**

The Lombard Historical Commission voted unanimously at their January 16, 2007 meeting to designate the Lombard Historical Society (LHS) Sheldon Peck Homestead, located at 355 Parkside Street, Lombard, Illinois as a "landmark site".

Pursuant to Section 32.079 of the Lombard Village Code, the Lombard Historical Commission held a public hearing on Tuesday, August 14, 2007, at 7:30 p.m., in the Village Board Room at the Lombard Village Hall, 255 East Wilson Avenue, Lombard, Illinois, in regard to the request by the Lombard Historical Society and the Village of Lombard to designate the Sheldon Peck House (also known as the "Sheldon Peck Homestead"), located at 355 East Parkside Avenue (the "Subject Property") as a "Landmark Site". Notice of the public hearing was provided pursuant to Village Code and public testimony was received at the meeting.

In consideration of the presented testimony, submitted documents and discussion among the membership of the Historical Commission, the Commission considered the following criteria concerning the Subject Property and makes the following findings of fact:

1. The character, interest, or value as part of the development, heritage, or cultural characteristics of the Village.

The Commission recognizes that the easement area does not merit landmark designation. However, the easement area should remain a part of the Subject Property and should not be subdivided from the Subject Property.

Based on the submitted petition to the Lombard Historical Commission and the testimony presented, the Historical Commission finds that the existing Peck House/Homestead at 355 East Parkside Avenue does comply with the criteria established for designation as an landmark site based upon the aforementioned findings of fact, and, therefore, recommends to the Corporate Authorities that the Sheldon Peck House/Homestead at 355 East Parkside Avenue be designated as an historical site, subject to the following conditions:
