

LOMBARD POLICE DEPARTMENT

Date: Oct. 1st, 2013

To: Tim Sexton
Acting Village Manager

From: Deputy Chief Roy Newton

Re: Disposal of AED Units

The Lombard Police Department currently possesses 19 Laerdal FS2 Heart Start Model AED Units. The Units, are currently in the Lombard Police Department's inventory, and are at the end of their useful life as a result of expiration. Integris Equipment agreed to purchase the expired units from the Lombard Police Department in the amount of \$125.00 per unit totaling \$2375.

I would recommend the Village of Lombard authorize the disposal/sale of the 19 AED Units to Integris Equipment. This equipment has been sitting unused at the Lombard Police Department for a year.

A waiver of first reading is being requested to facilitate the disposal.

Respectfully Submitted,

Deputy Chief Roy Newton
