Berkshire Avenue at Charlotte Street

Request to replace temporary stop signs with permanent stop signs. (DISTRICT #4)

Dana Moreau explained that currently a temporary stop sign is used on school days during designated hours. However, many people are missing the sign and blowing through it. In looking at the MUTCD for school areas, it recommends consistency in signage. The school is also used during non-school hours for other activities and there is a playground there.

Chairperson Foltyniewicz asked if it's done like this anywhere else in town. Wirsing replied that it is not. Cation asked if kids are let out on both sides of the school. Moreau answered that they are. General discussion ensued regarding temporary stop signs.

A motion was made by Gary Cation, seconded by Michael Corso, that this Request be recommend to the Board of Trustees for Approval . The motion passed by an unanimous vote.

Patrick Drive and Cimarron Road Intersection

A resident request to install Yield or Stop signs. (DISTRICT #1)

Wirsing reported that he had someone there and the documentation states there were no cars. The sight lines are different there and there is a curve to slow people down. Police staff will check it out again after it warms up outside and more people are out. Tabled for 6 months.

6.0 New Business

7.0 Other Business

There was discussion regarding left turns from westbound Roosevelt into Walgreens by Highland Avenue.

Mullins commented that the left turn signal for Meyers onto Butterfield is too short. Dratnol said he will contact IDOT.

Chairperson Foltyniewicz commented that the northbound Finley onto westbound Roosevelt traffic gets extremely backed up. He suggested that an additional left turn lane be added. Dratnol explained that there is not enough right-of-way to do that. There would have to be wider receiving lanes so Roosevelt so the roadway itself would have to be modified.

Corso asked what projects the Village is doing this year. Dratnol answered; Lombard Meadows, which includes Chase Lane & Chase Court, reconstruction. It will be a 5 phase project and this is the first phase.
