Parkside Avenue Retaining Wall Request for Additional Fee

(CBBEL Project No. 03-170A)

Dear Mr. Kalisik:

Please find attached a spreadsheet outlining estimated additional hours and fee to complete the subject project. The project design was originally completed and final plans were prepared in 2008. However, the project has been put on hold since then. We recently met on May 12, 2011 and the Village has requested the following:

- Update the plans to current standards and make any other necessary revisions
- Update the specifications to current standards and make any other necessary revisions
- Review the updated plans and specifications with the Village
- Coordinate the updated plans and specifications with the railroad and obtain their approval
- Coordinate the updated plans with the utility companies
- Provide bidding assistance and prepare an addendum if necessary

We propose a fee of \$13,645.58 to complete these services.

Should you have any questions please feel free to contact me.

Sincerely,

Jason Souden, PE Vice President

c: David Dratnol, PE, Village Engineer
