Subject: "No Parking" Signs on the East and West Sides of N. Craig Pl.

At the intersection of N. Craig Pl. and St. Charles Rd. vehicles are parking close to the intersection. When this occurs turning vehicles have no place to go because the intersection is blocked. This only happens when area businesses have a special event and there is a shortage of parking in their parking lots.

To better improve the traffic flow at the intersection I would recommend installing "No Parking" signs on the east and west sides of N. Craig Pl. from 80 feet north of St. Charles Rd. south to St. Charles Rd.
