1. All prices quoted herein are valid 30 days from the date prepared. All prices exclude applicable federal, state, and local fees, taxes, and surcharges. All prices exclude premise visits, on-site wiring and DMARC extension, which are subject to a technician premise visit charge and separate time and materials charges.
2. Recurring charges are per month for the full length of the specified term. CIMCO cannot guarantee that the local access portion (LEC) of these rates will stay constant during the service term.
3. CIMCO recommends that the local telephone company facilitate the extension of the customer's demarcation. However, extension of the demarcation by the local telephone company is subject to time and material charges separate from the above network charges.
4. This quote is valid based on the availability of facilities provided by the local exchange carrier (LEC).
5. (If applicable) This quote does not include Special Construction Costs that may be necessary to supply Fiber Optic facilities at the customers location.
