2013 Asphalt Paving and Patching

James D. Fiala Paving Company, Inc.

Attached please find Change Order No. 2 for FY 2013 Asphalt Paving and Patching. This change order increases the contract in the amount of \$8,414.50, which brings the net contract to \$1,432,403.50.

There was a discrepancy in the field pertaining to quantities, in which, approximately 8,000 SY were not accounted for on Eisenhower Ln. As such, \$70,000.00 had to be reallocated to rectify this error. In doing this, the following streets were eliminated from the program: Elizabeth Ave. (Sunset Ave to Goebel Dr.); Meadow Ave. (Rte 53 to West Rd); Majestic Dr (Main St to Regency Dr) and Eastgate (Highland Ave. to Stewart Ave.)

Another concern was poor base on a couple of roadways, which accounted for some of the increase. This occurred on 2nd St (Maple St to Emerson Ave) and Emerson Ave (Westmore – Meyers Rd to 3rd Ave). These were unforeseen conditions that need to be addressed prior to resurfacing roadways to get a good end product, longevity of roadways. As such, these roadways are planned for grind and overlay of at least 4" in lieu of the typical 2". Some areas may require full-depth edge grind as well.

There were significant amounts of pavement striping that needed to be added to the contract. This amounted to the sum of over \$23,000.00.

There are a number of reductions in quantities to offset the change order. This is a result of quantities that are no longer being used or have been agreed to by the Contractor.

This change order will be presented at the July 9th Public Works Committee meeting. If recommended by the Committee, please present this change order to the Board of Trustees for approval. If approved, please have two (2) signed copies returned to PW-Engineering for further processing.
