FROM: Carl Goldsmith, Director of Public Works

SUBJECT: Sale of Real Property - 581 W. Madison Street

The Village of Lombard purchased the parcel, which is 139.92' x 70' (.45 acres) in April 2016. The property was acquired for the purpose of acquiring right-of-way necessary for the construction of the IL Rt. 53 and Madison Street Intersection Improvement Project. The Village acquired the property for \$240,000.

The Village has completed the conveyance of the necessary portion of the ROW and has determined that the Village has no further need for the property. As such, the Village conducted an appraisal through Associated Property Counselors, Ltd. dated May 19, 2016. The appraised value of the property was determined to be \$240,000. The Village Board had previously discussed the sale and directed staff to proceed with the sale in accordance with applicable State Statutes, which would require the Village to sell the property for no less than 80% of the fair market value (\$192,000). The Village Manager and the buyer executed a Letter of Intent to sell the property for the \$210,000. The Village Board took action at the June 16, 2016 meeting to approve the necessary resolutions to sell the property.

Since the Village Board's approval, the Village Attorney has been notified that the buyer's lending institution appraised the property at \$202,000. As such, the bank will not issue a loan that exceeds the value of the appraisal. Staff has discussed the various options related to the property and believes the most prudent step is to reduce the sale price from \$210,000 to \$202,000 and proceed with the sale. Other options included marketing the property through a broker or an auction process. In both cases, the Village would incur fees that may exceed the amount of the reduction in sale price. Additionally, the options would require the Village to take steps to evict the tenant from the home, which could be time consuming and costly. An updated evaluation of the fiscal impact of the transaction is provided below.

Village Property Purchase Estimate

village i roperty i are	nasc Estimate			
Description	Cost			
Property Acquisition	(\$240,000.00)			
Saved ROW Cost	\$ 14,100.00			
Saved STP Funding Estimate	\$ 105,000.00			
Saved Project Letting Estimate	\$ 115,900.00			
Saved Legal Fees (per transaction)	\$ 50,000.00			
Village Incurred Costs Estimate	\$ (30,000.00)			
Village Sale	\$ 202,000.00			
Net Village Balance Estimate	\$217,000.00			

The Village Attorney has prepared the attached revised resolution relative to the sale of the subject property. Pursuant to State Statutes, the Village Board of Trustees must approve the sale under separate action and the votes require a two-thirds (2/3) vote of the Corporate Authorities. The Village President is required to vote on these matters as a super-majority is required.

Staff recommends that the Village President and Board of Trustees adopt A RESOLUTION APPROVING A CONTRACT FOR THE SALE OF SURPLUS REAL ESTATE (581 W. Madison Street).

The proceeds for the sale will be placed in the Construction Fund. Should you have any question, please feel free to contact me.

RESOLUTION NO	D.
---------------	----

# A RESOLUTION APPROVING AN ADDENDUM TO A CONTRACT FOR THE SALE OF SURPLUS REAL ESTATE (581 West Madison Street)

WHEREAS, on June 16, 2016, the Village previously adopted Resolution 48-16

approving a contract (the "Contract") for the sale of the real property commonly known as 581 W. Madison Street, Lombard, IL 60148 (the "Subject Property") to Richard Brackmann and Margaret Brackmann (the "Buyers"); and WHEREAS, Buyers have requested that the Village execute the addendum to the Contract, a copy of which is attached hereto as Exhibit A and made a part hereof,

WHEREAS, the President and Board of Trustees have determined that the Subject Property is surplus property; and

that reduces the purchase price to \$202,000.00 (the "Addendum"); and

WHEREAS, pursuant to 65 ILCS 5/11-76-4.1, the Village has had the Subject Property appraised by a State-certified real estate appraiser, a copy of the written certified appraisal performed by Dale J. Kleszynski, dated May 19, 2016, being on file with the Village Clerk's office, and subject to public inspection, and incorporated herein by reference (the "Appraisal"); and

WHEREAS, said Appraisal has determined that the value of the Subject Property is \$240,000.00; and

WHEREAS, in accordance with 65 ILCS 5/11-76-4.1, the President and Board of Trustees have determined that the purchase price for the Sale of the Subject Property should not be less than \$192,000.00, which is eighty percent (80%) of the appraised

value of the Subject Property; and

WHEREAS, it is in the best interests of the Village to approve the Addendum and complete the sale of the Subject Property to Buyers for \$202,000.00;

NOW, THEREFORE, BE IT RESOLVED by the President and Board of Trustees of the Village of Lombard, DuPage County, Illinois, as follows:

SECTION 1: That the sale of the Subject Property to Buyers for \$202,000.00, pursuant to the terms and conditions of the Contract, as amended by the Addendum, is hereby approved.

SECTION 2: That Village Staff is hereby directed to prepare the necessary documents to transfer title to the Subject Property to Buyers, pursuant to the terms and conditions of the Contract, as amended by the Addendum.

SECTION 3: That the Village President, Village Clerk, Village Manager and/or Village Finance Director are hereby authorized and directed to execute any and all necessary documents to complete the transaction contemplated by Section 2 above.

#### Uniform Residential Appraisal Report

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project

This appraisal report is subject to the following scope of work, intended use, intended user definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions or deletions to the intended user intended user. definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted

SCOPE OF WORK. The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraisar must, at a minimum, (1) perform a complete visual inspection of the interior and exterior areas of the subject property. (2) inspect the neighborhood. (3) inspect each of the comparable sales from at least the street. (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction

INTENDED USER: The intended user of this appraisal report is the lender client

DEFINITION OF MARKET VALUE: The most probable price which a properly should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and selter, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicat in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby (1) buyer and seller are typically motivated. (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest. (3) a reasonable time is allowed for exposure in the open market. (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto, and (5) the price. represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions' granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable. since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this. determination
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by faw
- 5. The appraisar has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraisar has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs deterioration. The presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warrantees, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner

2500273113 Fac # 160622

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3.1 performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5.4 researched, verified, analyzed, and reported on any current agreement for safe for the subject property, any offering for safe of the subject property in the twelve months prior to the effective date of this appraisal, and the prior safes of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, ventiled, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9.1 have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property
- t 1.1 have knowledge and experience in appraising this type of property in this market area
- 12. I am aware of and have access to the necessary and appropriate public and private data sources, such as multiple listing services tax assessment records public land records and other such data sources for the area in which the property is located
- 1.3. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes loxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex lage, mantal status, handicap familial status or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by faw.
- 18 My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19 I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report. I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report, therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20 I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

## **Uniform Residential Appraisal Report**

#### General Text Addendum

Prior sales of the subject in the last 3-Years and no sales of comparable sales within the last 1-Year. Subject: 03/16/2016 (recording date) 03/08/2016 (sales date) Ermoir. PMM Granies: Vidage of Lombard by Special Warranty Deed doc/28/33 in price indicated. Prior: 08/07/2015 (sales date) Granics: PMM Granies: Vidage of Lombard by Special Warranty Deed doc/28/33 in price indicated. Prior: 08/07/2015 (sales date) Grantor, Sherial of Du Page by Sherili's Deed Doc/28/13/5 san price indicated. Prior: 08/07/2015 (sales date) Grantor, Sherial of Du Page by Sherili's Deed Doc/28/13/5 \$24.000.00 (refer to attached RLI's Issting sheet). Prior owner was Richard Brackmann and Deborah Brackmann. Richard Brackmann is the present purchased. The details to my understanding are as follows: Rechard Brackmann and Deborah Brackmann, his write purchased the property in joint tenancy and socured a mortgage and refinance in both names. In 2013 another mortgage was secured to refinance the property but the mortgage was in Deborah Brackmann passed away. Richard Brackmann at that time: Subsequent to the securing of this mortgage Deborah Brackmann passed away. Richard Brackmann and stempled to pay the mortgage but the bank at that time reclised the tendering of the check and foreclosed. Needing a portion of the securing parties of the Richard Brackmann. Richard Brackmann is currently living on the subject. The Viok Town thip Assessor made a land change and created a new parcel number. The old pracel number was 06:18-100-027 and the new parcel number is 06:18-100-001. Refer to the property detail report and the Vork Township's Property

All the sales are closed. Refer to comments on page 3 of this report for comparable selection criteria.

Across the Board Adjustments. The subject has a fence and the sales do not. An across the board adjustment was recessary. The sales are considered comparable, compatible and competitive to the subject because of style, living area and location and are considered more reliable than sales outside the area with a fence.

Selection of Comparables. The selection of comparables are limited to ranch style improvements located in the western end of Lombard from Main St to Route 53 and south of the raizead Tracks a major boundary and north of Roosevelt Road. The comparables are limited to sanitar size living area with similar bedroom counts. Also the subjects stakings are private well and septic and a sale was chosen that has that leature. Most of the sites in Lombard are public sewer and water when available. The subject does not have the option to confice! To public sewer and water at the present time.

Range Guidelines Exceeded: The 25% price and 15% adjusted value range guidelines were exceeded. This is due to limiting the selection of comparables to the above criteria and not price. The comparables selected are considered the most reliable indicators of value and are all 3 betroom ranch style empowements located in close proximity to each other.

Crossing Major Roadways. Sale#3 427 S Finley Rollisting comparable#4 598 Green Valley Dr Wesi and listing comparable #5 1052 S Edson Ave are all located on the east side of Finley Road, a major roadway. This area is comparable competitive and compatible with the subjects area and is close to the subject.

Public Utilities. The one sale that has a private well and septic is sale#2, the balance of the comparables are public sewer and water. The subject does not have the option to connect to public sewer and water at this time and the comparables with sever and water were adjusted by and amount that is an estimate of the cost of connection.

#### Sales Ranking

Sale#1-554 W Harrison Rd was selected to bracket the living area on the tower end of the range presented has the same basement fanish; lacks a gorage, tocated on the west side of Finley Rd. This sale is given the most weight in the final value estimate.

Sale#2-533 W Edgewood Rd was selected to bracket the living area on the upper end of the range presented and because it is on well and septic but lacks a basement. This sale was given the second most weight in the final value estimate due to having well and septic and living area similarates.

Sale#3.427 S Finley Rd was selected because it a brick ranch like the subject with 3 bedrooms and is close to the living area of the subject and a basement. The listing indicated that it had listues but did not indicate what the issues were. On a visual tour of the interior the first floor appeared to be similar to the subject, but a view of the basement showed that all of the dry wall and finished ceiling were removed. The assumption is float the issue was flooding and would be a reason of the low sales price. This sale is given the third most weight because of this uncertainty of the issue indicated in the listing.

The listings confirm value

## UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: UAD Appendix D: UAD Field-Specific Standardization Requirements)

#### Condition Ratings and Definitions

The improvements have been very recently constructed and have not previously been accupied. The entire structure and all components are new and the dwelling features no physical depreciation

\*Note: Newly constructed improvements that leature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilisted/ne-manufactured into the new condition. Recently constructed improvements that have not been previously occupied are not considered "new any significant physical depreciation (if e newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and linishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction

The Improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but no wear and tear.

building component, may be updated or recently rehabilitated. The structure has been well maintained

The improvements feature some minor deferred maintenance and physical detenoration due to normal wear and tear. The dividling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

The Improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs rehabilitation or updating. The functional utility and overall [institutions as somewhat diminish didue to condition, but the dwelling remains useable and functional as a residence

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

#### Quality Ratings and Definitions

Onellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-grady plantily exterior refinement is and ornamentation, and exceptionally high quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2
Dwellings with this quality rating are often custom designed for construction on an individual property owners sale. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality

Owellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an Individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate tenestration and some exterior ornamentation and interior refinements. Materials, workmanship firesh and equipment are of stock or builder grade and may feature some upgrades.

Owellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available of basic floor plans featuring minimal fenestration and basic finishes with minimal extenor ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Deellings with this quality rating are of basic quality and lower cost, some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often dilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unabilited or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-conforming additions to the original structure.

#### Definitions of Not Undated, Undated, and Remodeled

#### Not Updated

Little or no updating or modernization. This description includes, but is not limited to new homes.

Residential properties of fitteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fitteen years of age are also considered not updated if the appliances, fixtures and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical flunctional deterioration

#### Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and

An updated area of the home should have an improved look and feet, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or

arganishment in the state of th

#### Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the felf of the period and the half bath count is represented to the right of the period.
