## Memorandum

To: Scott Niehaus, Village Manager

Through: Carl Goldsmith, Director of Public Works

From: Tom Ellis, Operations Superintendent *TE*

Date: April 10, 2018

Subject: FM15-04 Video Surveillance and Access Control system

The Village of Lombard received three bids to replace the the current video surveillance system on April 6, 2018. This project will improve and integrate video surveillance and access control at the village hall, public works, police department, fire stations and water facilities. The current system links together public works, village hall and the police station. Fire Station 45 (North) operates independently and Fire Station 44 (South) is not equipped with video surveillance as well as several water and pump stations. In this project, more modern cameras and equipment will be installed at the village's facilities and will be linked together by one video management system (VMS). The VMS will be integrated with new access control equipment that will be installed as part of this project. Each authorized user will be issued an access card that will allow system administrators to give or recind access to village facilities from their desk top or moble devise. The access control system will be universal at all village facilities under this contract. This project is intended to increase facility security and access uniformity for village owned buildings in various locations.

The following contractors submitted bids for this project;

Imeprial Surveillance, 1601 E. Algonquin Rd. Arlington Heights, IL	\$389,750.00
Pentegra Systems, 780 W. Belden Ave. Suite A. Addison, IL	\$360,355.00*
Current Technologies Corp. 450 Eisenhower Lane North, Lombard, IL	\$306,907.39*

\*Annual subscription required for software updates

Annual subscription costs for the software will help ensure that we are operating on the most current and secure software platform for our system. These estimated costs of \$4,200 will be after the first year of installation.

Staff has contacted the references provided by the contractor and received favorable recommendations. Staff recommends approving a contract with Current Technologies in an amount not to exceed \$306,907.139.

Please place this item on the April 19, 2018 Board agenda.
