Subject: St. Charles Road Parking – Additional Parking Spaces

On-street parking has been requested recently on the north side of St. Charles Road east of Garfield Street. Pavement striping from the Grace and St. Charles intersection project several years ago did not provide on-street parking for business patrons at these locations. Staff believes additional parking spaces can be accommodated during the St. Charles LAPP resurfacing project next year from Garfield Street to Craig Place. (See attached map.)

Staff recommends and requests a recommendation of eliminating the No Parking Zone restriction on the north side of St. Charles Road between the east curb line of Garfield Street to the west curb line of Craig Place.
