Subject: FD Desktop PC Replacement

The IT Department currently supports approximately 240 desktop computers. Several years ago the length of time we keep desktop computers was extended to five years. There are approximately 40 desktop computer systems in the FD building that will be five years old soon that need to be replaced. The existing desktops also do not meet the recommended specifications for the new Du-Comm applications that will be installed next year.

IT is recommending a purchase of 40 desktop computers at one time this year to allow for the best price and the smooth flow of new hardware implementation. The Village has standardized on Dell computers and Premier Government Pricing is being applied.

Funding for this project would come from the computer reserve account that has $40,000 allocated for the replacement of desktop PC in 2017.

IT Staff recommends a contract be awarded to Dell in an amount not to exceed $41,176.00 for the purchase of 40 desktop PCs and 40 monitors that includes three-year on-site warranties.

Doser, John
