

MEMORANDUM

TO: William T. Lichter, Village Manager

FROM: David P. Gorman, PE, Development Engineer *D.P.G.*

DATE: August 9, 2006

SUBJECT: **Acceptance of Public Improvements for the DuPage Medical Group Ambulatory Center Development Project at 2725 S. Technology Drive** *at*

The Private Engineering Services Division of the Community Development Department recommends acceptance of public water main, fire hydrants, sanitary sewer, storm sewer, sidewalk and parkway trees that were installed as part of the DuPage Medical Group Ambulatory Center development project. Attached is a utility map.

All of the public improvements are acceptable because they were installed substantially to plan and have passed all required tests. The storm sewer outside of the public right of way is to remain the maintenance responsibility of the property owner.

The required two-year maintenance letter-of-credit and the project record drawings have been reviewed and filed by the Private Engineering Services Division.
