MEMORANDUM

TO: Trustee Anthony Puccio, Chairperson
Economic and Community Development Committee

FROM: William J. Heniff, AICP, Director of Community Development *WJH*

MEETING DATE: September 11, 2023

SUBJECT: **2-8 W. St. Charles Road (Grove Tavern): Three Grant Requests**

The Community Development Department has received three grant applications by the owner of the 2-8 W. St. Charles Road property (10 W. St. Charles LLC/George Garifalis), and on behalf of the existing proposed/tenant for the properties Egg House LLC at (2-8 W. St. Charles Road):

1. A Downtown Renovation and Improvement Grant (Façade Grant) of up to \$50,000 for the proposed façade modifications and related eligible components.
2. A Restaurant Forgivable Loan of up to \$100,000 for the proposed tenant modification and build out of the existing vacant building at 6 West. St. Charles and ancillary and related tenant modifications in the 2 West St. Charles restaurant space.
3. A Downtown Retail Business Grant of up to \$20,000 for the proposed tenant modification and outside capital improvements.

The subject properties consist of the following existing land uses:

2 W. St. Charles Road: This two-story building has a first-floor lease to Egg House, a breakfast/lunch establishment on the first floor, and apartment units on the second floor.

6 W. St. Charles Road: This property is improved with a one-story retail building, which is currently vacant. Past tenants included Ash Tray Smoke Shop and Buona Pizza.

8 W. St. Charles Road: This property is an unimproved vacant lot.

The redevelopment proposal is to create a dinner restaurant on the premises to supplement the existing Egg House breakfast/lunch activity. Project components include:

- a complete renovation of the 6 W. St. Charles Road building to accommodate the dinner restaurant component;
- connecting the building to the adjacent 2 W. St. Charles building via a to be created access/egress door to allow for additional seating, access to reconfigured restrooms and

use of the existing Egg House Kitchen food preparation infrastructure by their staff (not unlike Harry Caray's/Holy Mackerel, Shannon's, Babcock's/Lilac League and the former Praga/BonTon); and

- Proving for an outdoor patio/seating area, along with an extended/covered dining area with full seasonal closure options.

ATTACHMENTS

1. Proposed front building elevations and existing conditions
2. Applications for the three grant programs
3. Project Cost Estimates Spreadsheet, with submitted quotes
4. Pending permit plan submittal to the for the entire project (relevant pages pertaining to the grant improvements are attached).

The overall project cost is approximately \$725,000. As has been approved with other properties and projects, multiple grants can be applied to the same property and project, provided that each component meets the individual grant criteria.

DOWNTOWN RENOVATION & IMPROVEMENT GRANT

The plan set (plan sheet A.5, 1. Front elevation) includes the following components which are grant eligible include:

1. New prefinished aluminum framed window;
2. New metal canopy;
3. Extended masonry parapet wall, additional coping and soldier course masonry on roof parapet wall;
4. Cement board fascia on proposed patio wall;
5. Gooseneck lighting and signage running board area with companion wall signage; and
6. Exterior fence/masonry wall abutting the proposed patio seating area.

DOWNTOWN RESTAURANT FORGIVABLE LOAN & BUSINESS GRANT COMPONENTS

These Programs provide for capital expenditure funding for the project and the following elements are eligible for consideration as part of the program:

1. Interior demolition activities for the 6 W. St. Charles Road structure and the restrooms in the 2 W. St. Charles Road building;
2. New corridor connection/entrance walls, restroom wall and restroom fixtures in the 2 W. St. Charles Road building;
3. In the 6 W. St. Charles space, improvements include:
 - a. interior walls linking buildings, and internal wall partitions;

- b. kitchen infrastructure to provide additional preparation area within the 6 W. St. Charles space) (electrical upgrades, plumbing, ventilation, flooring/lighting);
- c. Bar infrastructure (electrical, plumbing);
- d. Modifications to the existing west exterior wall to provide for windows, doors to the patio area;
- e. NFPA Life/Safety components (alarm systems);
- f. Ancillary interior improvements (flooring, paint, fixtures); and
- g. Architectural, interior design costs (as applicable)

The Downtown Restaurant Forgivable Loan Program allows for the Village to grant the petitioner back up to 1/3 of the total project cost, not to exceed \$100,000. A lien may be placed on the building (similar to the Downtown Retail Business Grant) in the amount of the forgivable loan. One tenth of the forgivable loan is forgiven for each full year that the restaurant is open.

GRANT REQUEST ELEMENTS

Regarding the grant history of the properties, the Village approved a Façade Grant for 2 W. St. Charles Road (Grove Restaurant) in 2006, but the grant was never acted upon. Egg House undertook a remodeling effort and installed new awnings as part of their 2020 activities, but no grants were applied for that project.

The applicant has submitted a spreadsheet of submitted costs by trade. He has attempted to complete his efforts for three quotes per trade/activity, but the ability to meet this for all trades has been a bit elusive. As such, the quotes and spreadsheet show the various applicable trades and quotes for each of the construction disciplines and materials that comprise the project.

However, staff recognizes that the grant request being request are far below the \$725,000 estimated cost figures shown for the whole project (i.e. one-half of the façade costs and business retail grant and one-third of the Forgivable Loan). For those discipline in which three quotes have not been provided, staff did review the quotes costs and find that they are reasonable for consideration of the grants. Given that the total project cost far exceeds the grant parameters, even if such costs are less than noted to date, full grant eligibility will be met.

POLICY REVIEW ELEMENTS

The Downtown Restaurant Forgivable Loan Program and Retail Grant Policy have lease requirements. The Egg House Restaurant is in their second year of the first 6-year lease provisions. Should the grant be approved, the owner intends to extend the lease to the other property, thereby making the property and business under lease for an 11-year period, which is beyond the Forgivable Loan period.

The Lombard Downtown Revitalization Project Guidebook focuses on aesthetic standards in Section 4. The design recommendations can be applied to numerous buildings in downtown

Lombard. This building is specifically identified in the Guidebook and a restaurant use is consistent with the attached graphic depiction, include proposed land use, building design, gooseneck lighting, sign depiction and even the concept of seasonal dining on the premises.

The College of DuPage Small Business Development Center requirement was not needed as the Egg House is an existing business. They opened in 2020 and their success has led them to expand with a complementary dining concept.

COMMITTEE ACTION REQUESTED

This item is being placed on the September 11, 2023 ECDC agenda for consideration for the 2-8 W. St. Charles Road property. Staff recommends that the ECDC recommend approval to the Village Board for:

1. A Downtown Renovation & Improvement Grant request of up to \$50,000 for the proposed façade reconstruction improvements;
2. The Retail Business Grant in an amount not to exceed \$20,000 for the proposed interior improvements; and
3. the Downtown Restaurant Forgivable Loan in an amount not to exceed \$100,000, based upon the proposed interior buildout plans submitted as a part of the applicant request.

The awards are over \$10,000 and as such requires final approval from the Village Board of Trustees. Said recommendation is subject to the following conditions:

1. Building permits must be received for the applicable work, with completion and passage of all required inspections.
2. Work shall be complete one year from the date of approval by the ECDC.
3. Before the grant can be paid out, 10 W. St. Charles Road LLC shall submit a final receipt (showing the project is paid in full), waivers of lien from contractors, and an IRS W-9 form. The Village shall pay out to the grant recipient based upon the grant parameters limitations set forth within the respective Policies.
4. After the grant funds are paid, 10 W. St. Charles Road LLC shall display the Village window sign acknowledging they received a grant.
