Subject: Fire Alarm False Alarm Ordinance

This ordinance will allow the Village of Lombard to collect fees for repeated fire alarms that are deemed false alarms.

This includes: Fire alarms given intentionally, fire alarms due to or caused by improper installation, fire alarm design or use or due to lack of required maintenance, resulting from any test, repair, alteration or addition to the fire protection system without prior notification thereof to the Lombard Fire Department or to DuComm.

The ordinance causes fees to be charged to any fire alarm user for the 3rd false alarm in any one year period. The one year period is from January 1st to December 31st. There is language in the ordinance that provides for exceptions for fees which essentially include those conditions outside the control of the fire alarm subscriber. These exceptions are acts of nature, loss of electrical utility supply, telephone line interruption or legitimate 'good faith' activations. No fees will be charged to another governmental agency or department of another governmental agency.

This ordinance will provide us with an additional tool to reduce calls by encouraging building owners and occupants to maintain their fire alarm systems. Also, this ordinance will allow the Village to collect fees from fire alarm subscribers that produce repeated unnecessary calls for service. The proposed ordinance is based upon similar ordinances in neighboring communities. The ordinance was prepared by the Village Attorney. The attached chart reflects neighboring communities that have such ordinances, when fines are levied and the amount of the respective fines.
