Date: May 28, 1999
Subject: Additions/remodeling of Parkview and Madison Schools

Due to the passing of the school referendum this past fall, Parkview and Madison School are modifying their sites. One important addition is the expansion of the onsite drop-off and pickup area. The school district requested one-way streets at both schools. After reviewing their request, the use of signage should address their concerns and the need for a one-way street is no longer necessary. Attached is a site map for each school with key areas labeled.

Parkview School

- A. This is a new drop-off zone with a new sidewalk along the building for safe loading/unloading of children.
- B. Install a "No Left Turn" sign at the exit onto Elizabeth. This will ensure traffic keeps moving by only allowing right turns out.
- C. Install a "No Left Turn" sign southbound Elizabeth at the school driveway. This sign will eliminate congestion and confusion at the driveway, only right turns will be allowed.

Madison School

- A. This area will be expanded to accommodate many more vehicles for drop-off and pickup of children. As shown on the site map this lot will extend near the east property line of Madison School.
- B. Move existing eastbound "No Left Turn" signs to align with new driveway.
- C. Install a "No Left Turn" sign at the exit onto Madison. This will ensure traffic keeps moving by only allowing right turns out.
- D. Extend the "No Parking, Standing, Stopping" signs from West Green Valley Dr. to east limits of parking lot. With the new parking lot, there should be no reason for parents to drop-off or pickup on Madison. This will also keep traffic moving.
- E. Install "No Left Turn" sign southbound West Green Valley Dr. at the school driveway. This will only allow parents to make a right turn into the parking lot.
- F. Install a "No Left Turn" sign at the exit onto West Green Valley Dr. This will ensure traffic keeps moving by only allowing right turns out and moving traffic away from the school.

G. This area will be used as a drop-off and pickup area. The school will be adding a sidewalk that will run along the driveway.
