Through: Carl S. Goldsmith, Director of Public Works
From: Angela M. Podesta, Utilities Superintendent
Date: July 29, 2011
Subject: Snow & Debris Hauling Bid

Background

The Snow & Debris Hauling bid was broken into three categories: snow and material hauling, debris hauling and disposal and lastly, snow removal. The snow and material hauling category includes providing labor and equipment for hauling the snow from windrow operations and other miscellaneous large scale material hauling within the Village. The debris hauling and disposal category includes hauling and disposal of debris from utility digs, paving operations and fall street sweeping operations. The debris hauling and disposal category includes for the disposal of debris qualifying as clean construction debris and also special waste. Lastly, the snow removal category provides labor and equipment such as front end loaders, to assist the Village in snow removal operations. The February, 2011 snow storm was the first time the Village used contractors to assist in snow removal operations. All quantities are estimated based upon past experience and the bids were evaluated per each category. Proposals were sent to nine (9) companies. Bids were opened on July 21, 2011. Five (5) bids were submitted as follows:
