Subject: Public Safety and Transportation and Committee Recommendation

Glenbard East High School Parking Restriction Modifications

The Public Safety and Transportation Committee requested Village staff to provide a comprehensive policy for parking around Glenbard East High School. Staff developed a more comprehensive approach to regulate the parking on the streets in the area of the school which is often used by students to park in the absence of on-site parking at Glenbard East High School.

As part of the policy preparation outreach, staff met with the principal of Glenbard East High School, notified the public via social media and website, and held public comment at the Public Safety and Transportation meeting. To address Committee comments, staff developed a policy for future requests to holistically restrict parking for all areas that generally lie within a 1/3 mile radius of the property limits of Glenbard East High School. The restriction of 2 hour parking between 9 a.m. – 3 p.m. on School Days will allow residents and visitors to utilize on-street parking, but will limit student parking based upon the inability for students to comply with the 2 hour limit. The final streets receiving this restriction was selected by the 1/3 mile radius as well as input from Trustee Ware and the Public Safety and Transportation Committee. These streets are located on the following page exhibit. Other areas not included within the exhibit would not be considered for additional restrictions, unless the Village Manager determines that a concern for public safety exists. These areas would be addressed on a case-by-case basis, with recommendations brought back through the Public Safety and Transportation Committee.

During the November 14, 2016 meeting, the Public Safety and Transportation Committee voted to recommend the policy and parking restriction in accordance with and addition to staff recommendation.
