Subject: Public Safety and Transportation and Committee Recommendation

Park Avenue Permanent One-Way

During the Metra Station improvements project, Park Avenue was temporarily converted to a southbound one-way street from St. Charles Road to Michael McGuire Drive. The Village contracted KLOA, a traffic engineering consultant, to determine if Park Avenue should remain a one-way street permanently. Local businesses and the Lombard Town Centre support this permanent traffic pattern change. As part of the study, existing traffic and parking conditions were analyzed using previous and current conditions. The study supported retaining the one-way traffic flow.

During the January 4, 2016 meeting, the Public Safety and Transportation Committee voted to recommend making the one-way traffic pattern permanent in accordance with staff recommendation.
