MEMORANDUM

TO: David A. Hulseberg, Village Manager

THROUGH: Carl Goldsmith, Director of Public Works *CG*

FROM: David Gorman, Assistant Director of Public Works *DG*

SUBJECT: 2011-2016 Solid Waste Contract

DATE: August 10, 2010

Attached is a proposed contract with Waste Management (WM) for 4/1/11 through 3/31/16, as recommended by the Environmental Concerns Committee. The current contract will expire on 3/31/11. Please present the contract to the Board of Trustees at their 8/19/10 meeting.

BACKGROUND:

The Environmental Concerns Committee (ECC) had discussed the three available options of (1) a contract extension, (2) a Request for Proposals and (3) a new contract with WM.

Option 1: Contract Extension:

The existing contract includes a provision for the Village to extend the expiration date to March 31, 2013. Terms would remain unchanged, including continuing to increase fees annually by the Consumer Price Index (CPI). Staff has confirmed with Waste Management that they would recognize the Village's right to extend the current contract for two years under the same terms. However, The ECC desired to incorporate changes to allow flexibility and potential cost savings for residents that would like to downsize their toters but have been unable to do so under the current contract terms (i.e. they are not senior citizens).

Option 2: Issue a Request for Proposals:

The Village could issue a RFP to solicit proposals from other companies. The argument for this is based on the possibility of lower pricing from a competitor. Arguments against this include the good working relationship with WM, the complexity of managing the commercial routes and Village events, disturbing the current balance of commercial and residential fee rates, collecting the existing toters, renewed payments for replacement toters and service problems until the new company gets up to speed. Also, as is explained later in this memo, Lombard does not compare very favorably to other communities for residential service rates.

Option 3: New Contract with WM for 2011-2016 (ECC's Recommended Action):

A couple changes are proposed for the next contract term. First, every resident would be given the option for 35-gallon refuse and recycling toters instead of the current practice of only senior citizens in order that all residents may benefit from reduced costs and the ability to store smaller toters. (The default toter size would remain 64-gallons unless otherwise requested.) Second, the "Meet & Compete" clause in the contract that protects against monopoly pricing for the commercial customers would be revised to set a 20% margin since the current language of matching the lowest rate found in other communities does not recognize the overhead costs for public facilities and community events that are included in Lombard's fee schedule. Lombard's contract will continue to be unique by incorporating this check on market pricing.

All prices that have been subject to an annual escalation for both residential and commercial accounts would be increased by 3% for the first year of the new contract. Subsequent years would be adjusted by the CPI.

COST COMPARISON:

The table below projects costs for 35-gallon totes to 2011 and, thus, is slightly changed from the table previously provided to the ECC. Note that the Lombard rate would be lowered by \$1 from current pricing, due to the expiration of the toter implementation fee. The price for a 64-gallon toter will be \$13.06 starting 4/1/10, compared with the current cost of \$13.68. Thus, residents would save \$0.62/month if they keep the 64-gallon toter and \$3.24/month if they downsize to a 35-gallon toter.

35-Gallon Collection Costs Projected to 2011:

RECOMMENDATION:

The ECC recommends that the Board of Trustees approve the contract as drafted for the period of April 1, 2011 through March 31, 2016. The contract has been reviewed and found to be acceptable by the Village Attorney and Waste Management.

The **Contractor** shall provide this service after being notified by the **Village**, and shall bill the **Village** at the contracted hourly rate.

Section 8A(10) Christmas Tree Collection

The **Contractor** shall provide a special collection for Christmas trees for a two (2) week period in early January, the exact dates to be mutually determined by the **Contractor** and the **Village**.
