

## Interoffice Memo

**To:** Scott Niehaus, Village Manager  
**Through:** Carl S. Goldsmith, Director of Public Works   
**From:** David A. Dratnol, P.E., Village Engineer   
**Date:** October 7, 2014  
**Subject:** 2014 Backyard Sewer Lining Project  
 RM PROG 31

---

The purpose of the Backyard Sewer Lining Program is to rehabilitate deteriorated sections of sewers located in rear yards throughout the Village. The process utilized for this work is cured-in-place-pipe (CIPP) lining. This method is a trenchless technology which drastically decreases surface disruptions and minimizes disruptions to the residents.

Three (3) potential bidders purchased plans for the referenced project. At 10:00 A.M. on October 07, 2014, two (2) bids were received, opened and read aloud. The bid results are summarized below:

<i>Company</i>	<i>Bid</i>
Michels Pipe Services 817 West Main Street, P.O. Box 128 Brownsville, WI 53006-0128	\$96,754.00
Insituform Technologies USA, LLC 17988 Edison Avenue Chesterfield, Missouri 63005	\$137,175.00
Engineer's Estimate	\$92,049.88

The bid tabulation is attached and will be posted on the Village website within two business days after the Village Board of Trustees awards the contract.

Public Works-Engineering recommends award of this contract in the amount of \$96,754.00 to Michels Pipe Services of Brownsville, Wisconsin as the lowest responsible and responsive bidder. They have not worked in the Village recently; however, in the past they have done satisfactory work and their current references were verified.

Please present this item to the President and Board of Trustees for their review and approval at their regular meeting on October 16, 2014. If approved, please return two (2) executed copies of the contract and contract bond to PW Engineering for further processing as soon as possible.
