2016 Maintenance of Traffic Control Equipment Bid

The purpose of the 2015/2016 Maintenance of Traffic Control Equipment contract is to maintain Village owned traffic control equipment. This equipment includes traffic signals, traffic detection, signal interconnection, controllers, and emergency vehicle preemption. The contract was completed for the first year in 2015 with an option for an additional year in 2016. The 2016 contract amount will remain at the same amount of \$52,081.20 as stated in the 2015 contract. Since few contractors are qualified for this work, this contract was previously directly sent to potential specialty electrical contractors, and thereby a bid waiver is requested.

Staff recommends awarding the 2016 contract option to H&H Electric Company in the amount of \$52,081.20.

Please present this item to the President and Board of Trustees for their review and approval at their regular meeting on December 17, 2015. If approved, please return the executed copies of the extension letter to PW Engineering for further processing.
