InterOffice Memo

To:

William T. Lichter, Village Manager

From:

David A. Dratnol, P.E., Village Engineer

Date:

January 7, 2004

Subject:

Oak Creek Industrial Park Resurfacing,

Change Order No. #1

Attached please find the final Change Order No. 1 for this project in the amount of a net deduct of \$51,209.45. This change order reflects final as-measured quantities and includes the addition of new pay items as described below.

Concrete Collar for Point Repairs

The original plans did not include a means of making the final connection for point repairs to existing storm sewers. The use of concrete collars for this purpose was approved by the Village.

Repairing Concrete Bench in Catch Basin

The catch basin on Foxworth Drive was originally called out to be removed and replaced. However, the structure was in good condition with the exception of the bench in the bottom. The bench was reconstructed instead of replacing the entire structure.

Frames and Grates, Type 23

On Foxworth Drive, two catch basins were called out to be removed and replaced. These structures were found to be in good condition. Therefore, only the frame and grate was replaced with the appropriate type 23. The same scenario held true for the inlet on Foxworth Drive. The structure was in good condition, so only the frame and grate was replaced.

Catch Basin to be Reconstructed

The structure on Springer Drive was called out to be replaced with a new inlet. However, this new structure would be in conflict with the existing watermain. The catch basin was reconstructed in order not to disturb the watermain.

Geotechnical Fabric for Ground Stabilization

The plans called for twelve inches of PGE at the Oak Creek Entrance. However, once excavation began the subbase was found to be in good condition. Therefore, fabric and ten inches of CA6 was used in lieu of the PGE.

Traffic Signal Post, Galvanized Steel, 18 ft. - Remove and Replace

The traffic control plan specifically calls for a line item for a new 18 foot galvanized steel post along with the removal of the existing shorter post. However, this line item was not included in the summary of quantities.

Oak Creek Industrial Park Resurfacing, Change Order No. 1 Page 2 of 2

Reconstruct Double Handhole

The double handhole on the southwest corner of Oak Creek Drive and Finley Road needed to be repaired. The existing handhole was removed to a depth of one foot below the sidewalk and reconstructed to the height of the sidewalk.

Modify Existing Traffic Signal Cabinet

The current traffic signal sequence had a conflicting phase, with a walk signal and a right turn green arrow both appearing in the same phase. Therefore, a pedestrian exclusive phase had to be incorporated into the controller to insure the safety of the pedestrians walking across Finley Road.

Install Econolite ASC/2S-2100 Controller

The existing controller in the cabinet was an out-dated version of the ASC/2S-2100. The controller was replaced with the newer version because finding replacement parts for the older version would be costly and challenging when any problems arise in the future.

This item will be presented to the Public Works Committee on January 13, 2004. Pending Committee recommendation, please present this change order to the President and Board of Trustees for their review and approval at their regular meeting on January 15, 2004. If approved, please have two signed copies returned to Engineering for further processing.

RESOLUTION R 04

A RESOLUTION AUTHORIZING A CHANGE ORDER INVOLVING A DECREASE IN THE DOLLAR AMOUNT OF THE CONTRACT OF \$10,000 OR MORE

WHEREAS, pursuant to Illinois Compiled Statutes, Chapter 720, Section 5/33E-9, units of local government are required to make specific findings prior to authorizing any change order relative to a contract which would increase or decrease the dollar amount of the contract by \$10,000 or more, or would extend or shorten the time in which the contract is to be completed by thirty days or more; and

WHEREAS, staff has presented and recommended the proposed Change Order No. 1 to the contract between the Village of Lombard and R. W. Dunteman Company regarding Oak Creek Industrial Park Resurfacing, as attached hereto as Exhibit "A" and made part hereof, to the Corporate Authorities of the Village of Lombard; and

WHEREAS, said change order attached hereto as Exhibit "A" would decrease the dollar amount of the contract by \$51,209.45

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF LOMBARD, DU PAGE COUNTY, ILLINOIS, as follows:

SECTION 1: That after reviewing the explanation of staff as to the necessity of and reasons for the change order attached hereto as Exhibit "A", the President and Board of Trustees find as follows:

- A That the circumstances which necessitated said change order were not reasonably foreseeable at the time the contract was entered into.
- B. That the basis of the change order was not within the contemplation of the contract when the contract was signed.
- C. That it is in the best interests of the Village of Lombard to approve the change order in its proposed form.
- D. That to the extent that it may have been necessary to go to bid relative to the work contemplated by said change order, bidding is hereby specifically waived as to the change order work.

Resolution 04 Page 2		
and Board of Trustees hereby appr	g made the findings set forth in Section is rove the change order attached hereto as at and Village Clerk to execute said char	Exhibit "A", and direct
