Subject: FY19 Vehicle Replacement, Sign Truck

---

The FY 2019 budget includes replacement of a Public Works Traffic Sign Division truck (unit # TS335, 2007 Ford F-450 utility body). Since the lead time to build this truck is approximately 9 months staff would like Village Board authorization to place the order for the vehicle now.

The chassis for this truck is available for joint purchase through the State of Illinois. Landmark Ford of Springfield, IL is the current State contract vendor (contract # 4018300). This truck will be outfitted with equipment for sign maintenance and repair. This truck will require equipment such as a post puller, post pounder and platforms with guard rails to install and maintain signs at different heights safely. The truck also requires specialized storage for 10 and 12 foot sign posts, signage, tools and hardware. Public Works searched for a vendor that could provide this equipment and build this type of truck. After some research and speaking with other municipalities in the area it quickly became apparent there is one vendor in this area that designs and builds these types of trucks, Sauber Manufacturing of Virgil, IL. Public Works has inspected sign trucks Sauber has built for Elmhurst and Bolingbrook and found them to meet Lombard's needs. The cost of the chassis is \$32,949 and the cost of the body, equipment and up fit is \$67,436. The total price of this truck outfitted with the above equipment is \$100,385. The amount in the 2019 budget for this purchase is \$120,000.

I recommend the Board of Trustees waive bid and award a contract to Landmark Ford of Springfield, IL in the amount of \$100,385 for one new sign truck per the attached specifications. I also recommend declaring Village unit # TS335 as surplus per the attached ordinance and authorizing its sale. Waiver of first reading is requested on this ordinance. Please submit this item to the Village Board for their consideration at the July 19, 2018 meeting.
