To: Tim Sexton
Finance Director

From: Larry McGhinnis
I.T. Manager

Date: August 28, 2013

Subject: Computer Network Equipment Purchase

During the budget process IT indicated the need to address our network infrastructure to provide end users and backend systems with the necessary network speed, reliability, and enhance security to support all our current and future applications for the next six years. The project scope will address the switches, routers and firewalls for the Village Hall building, Public Works buildings, and both Fire Stations. As you may recall IT has already made these changes for the Police building.

Funding for this project would come from the Technology Reserve Fund.

IT received three quotes and is recommending purchasing the Cisco network equipment from CMS Communications in an amount not to exceed \$103,280.00.
