Business Retention Policy - Background

Business Retention Policy Efforts approved in 2021 pertaining to business retention strategies:

1. A Finance Policy establishing an Economic Development Fund.
2. A Business Retention Policy supplementing the existing Economic Incentive Policy (EIP) to address properties and businesses that warrant further consideration to stabilize or retain selected retail sales generating business establishments.

Business Retention Policy – Goals and Policy Statements

Eligible businesses must undertake a significant capital investment to improve or expand their facility/business and meet one of the two following categories:

- a) Be located within an identified Key Development Site, as approved by the Village; or
- b) Identified as being among the Top 25 retail sales tax generating businesses during one of the preceding three years.

Business Retention Policy – Key Points

- **Performance-based:** metrics must be determined, quantifiable and negotiated
- Lombard is a Non-Home Rule municipality: Per 65ILCS 5/8-11-20, **direct generated sales tax reimbursement provisions cannot be applied** – alternate metrics must be identified and used
- Retention incentive requests must be vetted and **not a “one size fits all”**
- **Capital improvements** a component of an incentive

- Looking to make significant capital investments to their dealership
- New construction and renovation items, property maintenance upgrades and **Electronic Vehicle Conversion upgrades** (estimated cost of approximately \$5,500,000 to \$7,000,000)
- Business consistently within the Top 25% of businesses relative to generated retail sales tax

Heritage Cadillac Property Background
