Subject: Purchase of Vehicle Storage Garage Trench Drainage Materials

Included in the FY2007 Budget for Public Works Buildings we have included the replacement of the Vehicle Storage Garage Trench Drain System. We have decided that rather than having the installing contractor provide materials with their markup for the system we would save money by purchasing our conditions in the vehicle storage garage would be the ACO FG200 Polyester Fiberglass Trench Drain System. During my research of the products I have found that the only Manufacturers Representative in the Tri-State Area is McCann Industries, Inc.

The price for the entire system would be \$19,752.00 for materials and shipping was estimated at \$1,600.00. Total purchase would be \$21,352.00.

Therefore, I am requesting a waiver of bids and award of a contract to McCann Industries, Inc. in the amount of \$21,352.00 to supply and deliver the ACO FG200 Polyester Fiberglass Trench Drain System to the Public Works Department.

Please place this item on the Village Board agenda for March 15, 2007.

If you have any questions, feel free to contact me.
