Subject: Proposed Security Fence for Railroad Right-Of-Way

Please find attached, catalog sheets and other informational material on the type of security fence that Villa Park is considering for installation along the Union Pacific right-of-way. Staff received the following budgetary quotes for this fencing:

Type	Height	Cost
Trident 2-Rail 8-ft Panel	8-ft	\$100/ft
Trident 2-Rail 8-ft Panel	6-ft	\$80/ft

These costs are based on 1,000 feet of fencing, installed at prevailing wage rates. A sample of this fence will be at the August 7<sup>th</sup>, 2006 Transportation and Safety Committee meeting.
