BACKGROUND/POLICY IMPLICATIONS:
The Village Board previously approved a technical services and intergovernmental agreement through CMAP to conduct a planning effort along the Butterfield Road Corridor. Over the past two years CMAP proceeded with data collection and plan development engagement efforts and development of a planning document that will serve as a framework for future planning and implementation efforts. Lombard staff, along with other applicable jurisdictions, were actively engaged in providing input in the plan development components. The Plan includes transportation, economic development, housing and parks and open space components. With this step completed, the Village Board is requested to accept the document.
