Subject: 641 N. Main Street Drainage Basin Construction Contract

Attached is the contract for construction of the 641 N. Main Street Drainage Basin.

Background

Following the May 2020 storm events, staff undertook an evaluation of additional detention facilities in the northern section of Lombard. Staff identified 641 N. Main Street as a parcel that would provide a benefit to approximately 111 acres bounded by North Avenue, Grace Street, Pleasant Avenue and Ridge Avenue. Detention in that area would allow the Village to better manage stormwater in the immediate area, which would reduce the potential for street flooding that results in closures of Main Street, Berkshire, DuPage and Sunset, addresses backyard flooding, basement backups and surcharging manholes.

In November of 2020, the Village Board authorized the purchase of the property. In October of 2022, the Village awarded a contract to Robinson Engineering for the design of the drainage basin.

During wet weather events, the basin will provide approximately 8.18 acre-feet of stormwater storage, which equates to nearly 2,700,000 gallons. In addition to the storm water benefits of the project, the Village has partnered with the Lombard Park District via an intergovernmental agreement to provide 3 pickle ball courts, a parking lot, a drinking fountain, and sidewalk around the basin.

It is anticipated that the work will commence at the in August 2024 and will be completed in November 2024.
