This agreement is made this _1'	t day of June	, 2020, betwee	n and shall be bu	nding upon the
Village of Lombard, an Illinois	municipal corporat	ion (hereinafter	referred to as the	"Village") and
Denler, Inc.	(hereinafter refer	red to as the "C	ontractor") and the	heir respective

The proposed work is officially known as "FY 2020 SURFACE TREATMENT PROGRAM" and further described as the application of a preservative rejuvenating agent on approximately 85,000 SQ YD of asphalt pavement at various locations throughout the Village of Lombard. The purpose of the application is to provide an environment seal on the surface asphalt course and to provide improved durability, thus longer service life. The function of the application is to replace the volatile components of the asphalt cement that are lost during the manufacture of the aggregate asphalt mixture and through the normal aging and/or oxidation process. The results of this application will be elevated asphalt penetration values for the upper 12.5 mm (0.50 inch) of the surface asphalt course and a greater resistance to further oxidation and water intrusion. All of the above as well as other project details are further described in the contract documents for the said work prepared by the Village of Lombard.

- This contract shall embrace and include all of the applicable Contract Documents listed below as if attached hereto or repeated herein:

Time is of the essence in regard to this Contract, and the Contractor agrees to achieve completion within the time permitted by all proper and appropriate means including working overtime without additional compensation.
- 4. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment to the Contractor under this Contract, the Village demands that the Contractor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due each. This statement must be made under oath or be verified by affidavit.
